Acknowledgements

- Dr Michelle van der Bank, my supervisor, for valuable input and guidance during this study, and for all the wonderful opportunities of attending national as well as international conferences.
- Ms. Angela J. Beaumont for her guidance, advice and insight.
- Mrs. Amida and Mr. Mark Johns for material collected from the Kogelberg Nature Reserve.
- The Moss Herbarium (University of the Witwatersrand) for material from herbarium specimens.
- The University of Johannesburg and the Thuthuka Programme (NRF) for financial support.
- The Department of Botany and Plant Biotechnology at the University of Johannesburg for the use of their laboratories.
- Louis for his ongoing love, advice and belief.
- My fellow students, especially Mr. James S. Boatwright and Mr. Anthony R. Magee for their support.
- Ms. Moleboheng Motsi, Ms. Colette Robinson and Ms. Annemari van Niekerk for their help in compiling the data matrix.
- My family for their love and support.
- The Lord Jesus Christ for giving me the courage and strength to make this study possible.
