ACKNOWLEDGEMENTS

To undertake and complete a research study such as this is a mammoth task. I could not have achieved this without the support and encouragement of the people around me. I therefore would like to thank the following people for their help and encouragement that made this dissertation possible.

- Firstly, I must give thanks to my God, my Lord and Saviour, Jesus Christ, for giving me the strength to finish this dissertation, and for the spirit of endurance and perseverance. Thank you Lord!
- My husband Richard, and my children Nicole and Claudia, for supporting me and encouraging me during my studies. Thank you for your love and patience during this difficult time.
- My supervisor and mentor, Supt. P.E. Bezuidenhout. Thank you for all your encouragement, support and help.
- All the social workers that participated in the two focus groups. Thank you very much for your time and active participation.
- My fellow students Daphne Naidoo and Rashree Singh, thank you for being a pillar of strength and support when I needed you. We have finally made it through this journey together!! And what a journey it was!
- My supervisor, Dr Emmerentie Oliphant, for her guidance and support during the period of my study. Thank you for your inspiration, dedication and support.
