3.2.6.3.5

3.2.6.3.6

3.2.6.3.7

3.2.6.3.8 Landmark 8: Fifth toe

Definition: Distal tip of the fifth toe

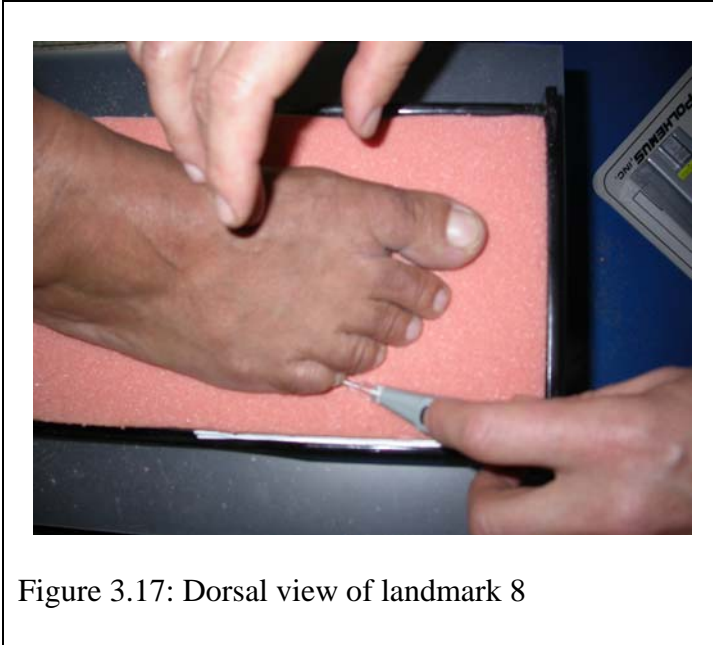

Figure 3.17: Dorsal view of landmark 8

3.2.6.3.9 Landmark 9: Fifth metatarsophalangeal joint

Definition: Widest part of the foot in the sagittal plane at the 5th metatarsophalangeal joint

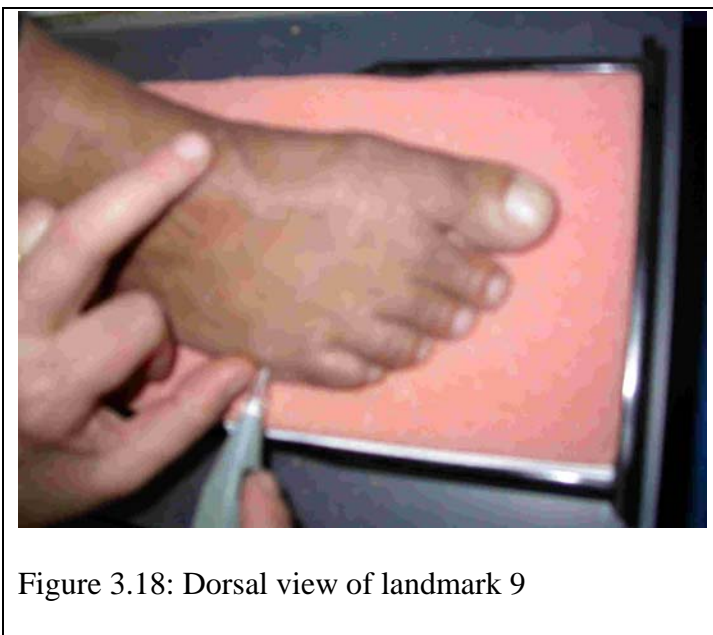

Figure 3.18: Dorsal view of landmark 9

3.2.6.3.10 Landmark 10: Styloid process

Definition: Palpated medial tip of styloid process at the base of the fifth metatarsal

Figure 3.19: Palpation for landmark 10

Figure 3.20: Dorsal view of landmark 10

3.2.6.3.11 Landmark 11: Top of the hallux

Definition: Top of the hallux at the base of the toenail

Figure 3.21: Dorsal view of landmark 11

3.2.6.3.12 Landmark 12: Top of the instep

Definition: Top of the instep at maximum dorsal curvature in the sagittal plane

Figure 3.22: Dorsal view of landmark 12

Figure 3.23: Medial view of landmark 12

3.2.6.3.13 Landmark 13: Ankle

Definition: Top of the instep at point of maximum in curvature before the ankle

Figure 3.24: Dorsal view of landmark 13

Figure 3.25: Medial view of landmark 13

At this point in the methodology, the foot was removed from the impression foam block and landmarks continued to be marked on the impression material.

3.2.6.3.14 Landmark 14: Lateral heel

Definition: Most lateral point of the lateral heel margin impression

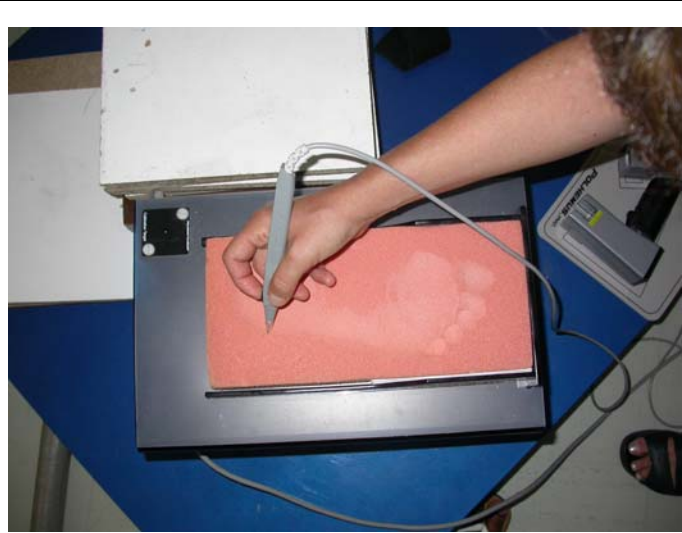

Figure 3.26: Dorsal view of landmark 14

3.2.6.3.15 Landmark 15: Centre heel

Definition: Centre of the heel pad impression

Figure 3.27: Dorsal view of landmark 15
