

## ACKNOWLEDGEMENTS

I wish to thank Professor Gertie Pretorius for her unflinching belief that I could get the job done and for her ability to motivate and inspire me to do so.

I am most grateful to Professor Anita Stuart whose accurate and logical thought progression always added value to the process.

A wife of noble character who can find? She is worth far more than rubies. I am so fortunate to have found her and I thank Morag for all the 'hard yards' and of course, for so much more.

I acknowledge with deep thankfulness, the grace and love richly given by the Lord.
