

CHAPTER ONE

INTRODUCTION, PROBLEM STATEMENT AND AIM

1.1	Introduction and background to the study	1
1.1.1	The shift from a modern to a postmodern culture	3
1.1.2	What is modern?	6
1.1.3	What is postmodern?	8
1.1.4	This text and postmodernity	10
1.2	The influence of the shift from a modern to a postmodern culture on career psychology	12
1.2.1	The modern world of work and career psychology	12
1.2.2	Shifting towards a postmodern world of work	14
1.2.3	Shifting towards a postmodern perspective of career process	17
1.2.3.1	Sensitivity towards diversity	18
1.2.3.2	The subjective self	20
1.2.3.3	The challenge to the general paradigm of progress	21
(1)	The early stages of working life	22
(2)	The middle stages of working life	23
(3)	The late stages of working life	24
(4)	Discussion	25
1.2.4	The position of career psychology in a postmodern world	25
1.3	Problem description	27
1.4	The aim of the study	28
1.5	Outline of the following chapters	28

CHAPTER TWO

THEORETICAL PERSPECTIVES ON VALUES

2.1	Introduction	31
2.2	Value hierarchies	33
2.3	Linguistic perspective	34

2.3.1	Noun	34
2.3.2	Verb	35
2.3.3	Adjective	35
2.3.4	Summary	36
2.4	Cognitive perspective	36
2.5	An emotive perspective	38
2.6	Values as needs	39
2.7	The social co-construction of values	39
2.8	Conclusion	40

CHAPTER THREE

THE BELIEFS ABOUT WORK PERSPECTIVE OF BUCHHOLZ

3.1	Introduction	42
3.2	The five beliefs about work systems	43
3.2.1	Work Ethic beliefs system	43
3.2.2	Organisational beliefs system	44
3.2.3	Marxist-related beliefs system	44
3.2.4	Humanistic beliefs system	45
3.2.5	Leisure Ethic beliefs system	46
3.3	Statistical analysis of the Buchholz Questionnaire	47
3.3.1	Method	47
3.3.2	Results of the factor analysis	48
3.3.3	Results of the item analysis	49
3.4	Proposal for three scales to be included in the Work Values Questionnaire	49
3.4.1	Collective values	49
3.4.2	Humanist values	49
3.4.3	Protestant Work Ethic	50
3.5	Conclusion	50

CHAPTER FOUR

THE WORK-RELATED VALUES PERSPECTIVE OF HOFSTEDE

4.1	Introduction	51
4.1.1	Power Distance	52
4.1.2	Uncertainty Avoidance	53
4.1.3	Individualism versus Collectivism	53
4.1.4	Masculinity versus Femininity	53
4.2	Power Distance	54
4.3	Uncertainty Avoidance	56
4.4	Individualism	58
4.5	Masculinity	59
4.6	Hofstede's work in the context of other value theories	60
4.7	Discussion	61

CHAPTER FIVE

PROPOSED SCALES FOR THE WORK VALUES QUESTIONNAIRE

5.1	Introduction	63
5.2	Collectivity	63
5.3	Uncertainty Avoidance	65
5.4	Power Distance	66
5.5	Humanist Values	67
5.6	Individualism	68
5.7	Conclusion	69

CHAPTER SIX

METHODOLOGY

6.1	Introduction	71
6.2	Construction of the questionnaire	76

6.3	Theoretical background	77
6.4	Format of the questionnaire	78
6.4.1	The importance of the use of a framework	78
6.4.2	Format of the items	79
6.5	Factor analysis	80
6.5.1	Exploratory and / or confirmatory factor analysis	81
6.5.2	Component analysis versus common factor analysis	81
6.5.3	Steps in the factor analysis	82
6.5.4	The first principal axis factor analysis	83
6.5.4.1	Division of the sample	83
6.5.4.2	Communalities	84
6.5.4.3	Rotation	85
6.5.4.4	Analysis of rotated loading for each item / variable	86
6.5.4.5	Interpretation of factors	87
6.5.5	Second principal axis factor analysis	87
6.5.6	Third principal axis factor analysis	88
6.5.7	Fourth principal axis factor analysis (Group Two)	88
6.5.8	Confirmatory factor analysis	88
6.5.8.1	The chi-square statistic	90
6.5.8.2	The Goodness of Fit Index (GFI)	91
6.5.8.3	The Adjusted Goodness of Fit Index (AGFI)	91
6.5.8.4	The Root Mean Square Error of Approximation Index (RMSEA)	91
6.6	Conclusion	91

CHAPTER SEVEN

RESULTS

7.1	Introduction	93
7.2	Division of the sample	93
7.3	Number of factors	94

7.4	First principle axis factoring and rotation	95
7.5	Second principle axis factor analysis	99
7.6	Third principle axis factor analysis	103
7.7	Fourth principle axis factor analysis	106
7.8	Factor correlations	110
7.9	Confirmatory factor analysis	111
7.9.1	Measurement model	111
7.9.2	Indices of fit	112
7.9.2.1	Chi-square statistics	112
7.9.2.2	Goodness of Fit Index	113
7.9.2.3	Adjusted Goodness of Fit Index	113
7.9.2.4	Root Mean Square Error of Approximation	113
7.9.3	Estimated factor loadings	114
7.9.4	Correlation between factors	115
7.9.5	Discussion of confirmatory factor analysis	116
7.10	Can the extracted factors be described as psychologically meaningful?	116
7.10.1	Factor One: Group Involvement	116
7.10.2	Factor Two: Uncertainty Tolerance	118
7.10.3	Factor Three: Structured Work	119
7.10.4	Factor Four: Visible Advancement Success	121
7.10.5	Factor Five: Progressive Advancement Success	122
7.11	Conclusion	122

CHAPTER EIGHT

CONCLUSIONS

8.1	Introduction	124
8.2	Overview	124
8.2.1	Research problem	124
8.2.2	Values	125

8.2.3	Buchholz and Hofstede	126
8.2.4	Postulated constructs	127
8.2.5	Empirical results	127
8.3	What is the content of this specific structure of work values?	128
8.3.1	Group Involvement	129
8.3.2	Uncertainty Tolerance	129
8.3.3	Structured Work	130
8.3.4	Visible Advancement Success	131
8.3.5	Progressive Advancement Success	132
8.4	Is the validity of the Work Values Questionnaire supported?	132
8.5	In which manner can this structure be useful for South African workers and employers?	133
8.6	Limitations	136
8.6.1	Sensitivity towards diversity	136
8.6.2	Methodology	137
8.6.3	Results	138
8.7	Recommendations for further quantitative research	138
8.7.1	Questionnaire development	139
8.7.2	Diversity studies	139
8.7.3	Organisational studies	140
8.8	Conclusion	141

BIBLIOGRAPHY	142
---------------------	-----

LIST OF TABLES

3.1	Items of the Work Ethic beliefs system	43
3.2	Items of the Organisational beliefs system	44
3.3	Items of the Marxist-related beliefs system	45
3.4	Items of the Humanist belief system	46
3.5	Items of the Leisure Ethic beliefs system	46

3.6	Conceptual analysis of the second order factor analysis	47
4.1	Five factor structure of the Super Value scale	61
6.1	Age categories of the participants	72
6.2	Gender distribution of the participants	72
6.3	Language distribution of the participants	72
6.4	Area in which participants grew up	73
6.5	Highest academic qualification of participants	73
6.6	Career groups of participants' aspired occupation	74
6.7	Career group of participants' fathers	74
6.8	Career group of participants mothers	75
7.1	Table of eigenvalues	94
7.2	Promax rotated factor matrix	96
7.3	Table of eigenvalues	100
7.4	Promax rotated factor matrix	101
7.5	Table of eigenvalues	103
7.6	Promax rotated factor matrix	104
7.7	Table of eigenvalues	107
7.8	Promax rotated factor matrix	108
7.9	Factor correlation matrix after Promax rotation	110
7.10	Postulated measurement model	111
7.11	Indices of fit	112
7.12	Standardized estimated parameters of the confirmatory factor analysis	114
7.13	Factor correlation matrix after confirmatory factor analysis	115
7.14	Items loaded on Factor One	116
7.15	Items loaded on Factor Two	118
7.16	Items loaded on Factor Three	119
7.17	Items loaded on Factor Four	121
7.18	Items loaded on Factor Five	122

LIST OF FIGURES

1	Scree-plot for number of factors (Analysis 1)	95
2	Scree-plot for number of factors (Analysis 2)	100
3	Scree-plot for number of factors (Analysis 3)	104
4	Scree-plot for number of factors (Analysis 4)	107
