

**MEANING IN LIFE AND SENSE OF COHERENCE AS PREDICTORS OF
COPING AMONG YOUNG ADULTS**

by

ANN-MARIE KERR HUTCHINSON

Dissertation submitted in fulfilment of the requirements for the degree

MAGISTER ARTIUM (Psych)

in

PSYCHOLOGY

in the

FACULTY OF HUMANITIES

at the

**UNIVERSITY
OF
JOHANNESBURG**

UNIVERSITY OF JOHANNESBURG

AUCKLAND PARK KINGSWAY CAMPUS

Supervisor: Professor A. D. Stuart

Co-Supervisor: Professor H. G. Pretorius

November 2005

Acknowledgements

- I would like to extend my sincere appreciation to the following individuals:
 - Professor Anita Stuart for her unwavering commitment to excellence, valuable feedback and insightful contribution to this research project.
 - Professor Gertie Pretorius for her ongoing enthusiasm and encouragement.
 - All of the first year students at the University of Johannesburg, Auckland Park Kingsway Campus who participated in this project, as well as their lecturers Gert Kruger and Marcel Harper.
 - Monique Bester from the Postgraduate Resource Centre and Wilhelm Koster from Statcon for their time and valuable assistance. Also Professor Freddie Crous from the Industrial Psychology department, Leo Abrami from the Arizona Institute of Logotherapy, Chris Huisamen, and Margi Hutchinson.
 - Judy Seligmann as well as my father Douglas Kerr for never allowing me to forget the valuable art of writing well.
 - My family – Perine, Douglas, Margi, David, Timothy - and my wonderful friends for all their patience, support and encouragement.
 - My husband Donovan for his endless patience, upliftment, love, encouragement, and immeasurable wisdom.

Table of Contents

Item	Page
Summary	xi
Opsomming	xv
Chapter 1	
Introduction: Orientation, Motivation and Aim of Study	1
1.1. Orientation and Motivation	1
1.2. Aim of Study	5
1.3. Implementation of Study	6
1.4. Definition of Constructs	8
1.4.1. Meaning in Life	8
1.4.2. The Salutogenic Paradigm and Sense of Coherence	8
1.4.3. Stress and Coping	9
1.4.4. Adolescence and Young Adulthood	9
1.5. Chapter Delineation	11
Chapter 2	
The Meaning of Life	12
2.1. Viktor Emil Frankl (1905 – 1997) and Logotherapy	13
2.1.1. The Philosophy of Viktor Emil Frankl (1905-1997)	14
2.1.2. Logotherapy	16
2.1.2.1 <i>Noögenic Neuroses</i>	18
2.1.2.2 <i>Will to Meaning</i>	19
2.1.2.3 <i>Task Orientation</i>	20
2.1.2.4 <i>Conscience</i>	20
2.1.2.5 <i>Self-transcendence</i>	21
2.1.2.6 <i>Self-distancing</i>	22
2.1.2.7 <i>Humour</i>	22

2.1.3.	Summary of Logotherapy.....	23
2.1.4.	The Existential Vacuum.....	24
2.2.	Existentialism	25
2.3.	Contemporary Approaches to Understanding and Researching Meaning	27
2.3.1.	Meaning in Life and Psychopathology.....	28
2.3.2.	Meaning in Life and Spirituality.....	29
2.3.3.	Meaning in Life, Stress and Well-Being.....	30
2.4.	Critique	35
2.5.	Chapter Summary	36

Chapter 3

	The Salutogenic Paradigm	38
3.1	Pathogenesis and Salutogenesis: A Comparison	39
3.2	The Salutogenic Paradigm	41
3.2.1.	Aaron Antonovsky's (1923-1994) Theory of Salutogenesis.....	41
3.2.2.	Sense of Coherence.....	43
3.2.2.1	<i>Comprehensibility</i>	44
3.2.2.2	<i>Manageability</i>	44
3.2.2.3	<i>Meaningfulness</i>	45
3.2.3.	Generalised Resistance Resources.....	46
3.2.4.	Stability of Sense of Coherence.....	47
3.2.5.	Cultural Considerations and the South African Context.....	48
3.2.5.1	<i>Sense of Coherence and Cultural Factors</i>	49
3.2.5.2	<i>Sense of Coherence and the South African Context</i>	51
3.3	Contemporary Salutogenesis and Sense of Coherence Studies	55
3.3.1.	Other Theories Accounting for Sense of Coherence.....	55
3.3.2.	Salutogenesis and Fortigenesis.....	58
3.3.3.	Sense of Coherence and Well-Being.....	59
3.3.4.	Sense of Coherence, Personality and Negative Affectivity.....	62
3.4	Critique	66
3.5	Chapter Summary	69

Chapter 4

Stress, Coping and Young Adulthood	71
4.1 Stress and Coping	72
4.1.1. Dimensions of Stress	73
4.1.2. Frankl and Noö-Dynamics.....	75
4.1.3. Coping With Stress.....	76
4.1.4. Contemporary Theories of Stress and Coping	80
4.2 Stress and Coping across the Life Span	84
4.2.1. Theories of Life Stages	84
4.2.1.1 <i>Levinson's Theory of Development</i>	85
4.2.1.2 <i>Erikson's Developmental Model</i>	86
4.2.1.3 <i>Super's Approach to Development</i>	87
4.2.2. Sense of Coherence in Infancy and Childhood	89
4.2.3. Stress and Coping Strategies of Young Adults	90
4.3 Why Focus on Wellness?	94
4.4 Chapter Summary	94

Chapter 5

Empirical Investigation: Methodological Orientation and Research

Method	96
5.1 Research Methodology	97
5.1.1. Research Approaches in the Social Sciences.....	97
5.1.1.1 <i>Positivist Social Science</i>	98
5.1.1.2 <i>Interpretive Social Science</i>	98
5.1.1.3 <i>Critical Social Science</i>	99
5.1.1.4 <i>Feminist Research</i>	100
5.1.1.5 <i>Postmodernism and Modernism</i>	100
5.1.2. Aim of Study, Rationale for Research Methodology and Research Questions	102
5.2 Participants	104
5.2.1. Population and Sample	105
5.2.1.1 <i>Age</i>	106
5.2.1.2 <i>Gender</i>	108

5.2.1.3	Language.....	108
5.2.1.4	Degree	109
5.2.2.	Procedure for Data Gathering	110
5.2.3.	Confounding Variables	112
5.3	Measuring Instruments.....	114
5.3.1.	Purpose in Life Test (Crumbaugh & Maholick, 1981).....	115
5.3.1.1	Content, Administration and Scoring	115
5.3.1.2	Psychometric Properties	116
5.3.2.	Orientation to Life questionnaire (Antonovsky, 1987).....	117
5.3.2.1	Content, Administration and Scoring	117
5.3.2.2	Psychometric Properties	119
5.3.3.	Adolescent Coping Scale (Frydenberg & Lewis, 1993).....	119
5.3.3.1	Content, Administration and Scoring	120
5.3.3.2	Psychometric Properties	121
5.4	Hypotheses and Postulates.....	123
5.5	Statistical Analyses.....	126
5.5.1.	Factor Analysis and Reliability	127
5.5.2.	Statistical Analysis in Terms of Normality	127
5.5.3.	Analysis of Variance (ANOVA) and T-Tests.....	128
5.5.4.	Correlation Analysis	128
5.5.5.	Multiple Linear Regression	128
5.5.6.	Logistic Regression	129
5.6	Chapter Summary.....	129

Chapter 6

	Statistical Findings	131
6.1	Factor Analyses	131
6.1.1.	Factor Analysis of the Purpose in Life Questionnaire (Crumbaugh & Maholick, 1981)	132
6.1.1.1	First Order Factor Analysis.....	132
6.1.1.2	Second Order Factor Analysis.....	135
6.1.1.3	Reliability	136
6.1.2.	Factor Analysis of the Orientation to Life Questionnaire.....	136

6.1.2.1	<i>First Order Factor Analysis</i>	136
6.1.2.2	<i>Second Order Factor Analysis</i>	139
6.1.2.3	<i>Reliability</i>	142
6.1.3.	Factor Analysis of the Adolescent Coping Scale Questionnaire.....	142
6.1.3.1	<i>First Order Factor Analysis</i>	142
6.1.3.2	<i>Second Order Factor Analysis</i>	145
6.1.3.3	<i>Reliability</i>	145
6.2	Distribution of Data: Normality of the Subscales	146
6.2.1.	Graphical Analysis	147
6.2.2.	Numerical Analysis	151
6.3	Analysis of Variance and T-Tests	154
6.3.1.	Age	154
6.3.2.	Gender.....	162
6.3.3.	Language	167
6.3.4.	Direction of Study.....	172
6.4	Correlation Analysis	176
6.5	Regression Analyses	179
6.5.1.	Regression Analysis using the components of Sense of Coherence and Purpose in Life	180
6.5.2.	Regression Analysis using the total scores on the SOC	186
6.5.3.	Logistic Regression Analysis	191
6.6	Chapter Summary	196

Chapter 7

	Discussion of Results, Conclusions, Limitations and Recommendations	198
7.1	Discussion of Results	198
7.1.1	Evaluation of the Applicability of the Measurement Instruments.....	199
7.1.2	Biographical Differences in Meaning in Life, Sense of Coherence and Ability to Cope	200
7.1.3	The relationship between meaning in life and sense of coherence	204
7.1.4	The relationship between meaning in life and the ability to cope	206
7.1.5	The relationship between sense of coherence and ability to cope	207
7.1.6	Meaning in life and sense of coherence as predictors of ability to cope	208

7.2	Conclusions	210
7.3	Limitations	211
7.4	Recommendations	212
7.5	Summary	215
	List of References	217
	Appendix A	229

List of Tables

Table		Page
6.1	Rotated Factor Matrix – Purpose in Life Test	134
6.2	Rotated Factor Matrix – Orientation to Life Questionnaire	138
6.3	Pattern Matrix – Orientation to Life Questionnaire	140
6.4	Comparison between present second order factor analysis of Orientation to Life Questionnaire groupings and theoretical factors according to Antonovsky (1987).	141
6.5	Rotated Factor Matrix – Adolescent Coping Scale.....	144
6.6	Mean, Median, Standard Deviation, Skewness and Kurtosis for the three questionnaires.....	152
6.7	Frequency of Ages of Participants in Sample (N=247)	155
6.8	Age Groupings and Descriptive Statistics for the Purpose in Life test, Sense of Coherence subscales, Sense of Coherence questionnaire total, and Adolescent Coping Scale (N=247).....	157
6.9	ANOVA for the Purpose in Life test, Sense of Coherence subscales, Sense of Coherence questionnaire total, and Adolescent Coping Scale with regard to 4 age groupings	158
6.10	Gender frequency (N=257).....	162
6.11	Group Statistics for Gender (N=257).....	163
6.12	Independent Samples Test for Purpose in Life test, Sense of Coherence questionnaire subscales, Sense of Coherence total and Adolescent Coping Scale with regard to gender groupings (N=257)	164

6.13	Language Groupings and Descriptive Statistics for language for Purpose in Life test, Sense of Coherence questionnaire subscales, Sense of Coherence total and Adolescent Coping Scale (N=257)	168
6.14	ANOVA for Purpose in Life test, Sense of Coherence questionnaire subscales, Sense of Coherence total and Adolescent Coping Scale with regard to 3 language groupings.....	170
6.15	Group Statistics for direction of study for Sense of Coherence questionnaire subscales, Sense of Coherence total and Adolescent Coping Scale.....	173
6.16	Independent Samples Test for Sense of Coherence questionnaire subscales, Sense of Coherence total and Adolescent Coping Scale with regard to 2 direction of study groupings (N=257)	174
6.17	Pearson's Correlation Coefficients between Purpose in Life test, Sense of Coherence questionnaire subscales and Adolescent Coping Scale.....	177
6.18	Pearson's Correlation Coefficients for Purpose in Life test, total scores on Sense of Coherence questionnaire and Adolescent Coping Scale	179
6.19	Stepwise Regression Procedure using the Purpose in Life test and the components of the SOC as predictor variables for level of coping	180
6.20	R squared for each step in the regression process	181
6.21	Regression parameters and diagnostics.....	182
6.22	Significance of excluded variables	184
6.23	R squared per step in the regression process	187
6.24	Regression parameters and diagnostics.....	188
6.25	Percentiles of responses on the Adolescent Coping Scale	191
6.26	Binary classification for the logistic regression model.....	191

6.27	Frequency of data used for Logistic Regression grouped according to binary coding (N=63).....	192
6.28	Variables in the block zero logistic regression model	192
6.29	Omnibus Tests of Model Coefficients	193
6.30	Likelihood function and R square for block one of the logistic regression analysis	194
6.31	Classification table.....	194
6.32	Logistic regression parameters and diagnostics	195

List of Figures

Figure		Page
3.1	A Comparison between the Pathogenic and Salutogenic Paradigms.....	40
4.1	Comparative Profile of Copers and Non-Copers	78
6.1	Distribution of data for Purpose in Life Test.....	147
6.2	Distribution of data for the Comprehensibility subscale of the Orientation to Life Questionnaire	148
6.3	Distribution of data for the Manageability subscale of the Orientation to Life Questionnaire.....	148
6.4	Distribution of data for Meaningfulness subscale of Orientation to Life Questionnaire.....	149
6.5	Distribution of data for the Orientation to Life Questionnaire	149
6.6	Distribution of data for Adolescent Coping Scale	150
6.7	Regression by age groups 17 to 19, 19, 20 to 21 and greater than 21; R squared linear data for the Adolescent Coping Scale (N=247).....	160

6.8	Regression by age groups 17 to 21 and older than 21; R squared linear data for the Adolescent Coping Scale (N=247)	161
6.9	Regression by Gender; R squared linear data for gender (N=257).....	166
6.10	Regression by language group and R squared linear for home language (N=257)	171
6.11	Regression by direction of study and R squared linear data for direction of study (N=257)	175
6.12	Cook's Distance plot for outliers (N=258).....	185
6.13	Scatterplot of actual versus predicted values for the Adolescent Coping Scale.....	186
6.14	Cook's Distance plot for outliers (N=258).....	189
6.15	Scatterplot of actual versus predicted values for the Adolescent Coping Scale.....	190
