ACKNOWLEDGEMENTS	i	
ABSTRACT	ii	
ABSTRAK	iv	
TABLE OF CONTENTS	vi	
LIST OF FIGURES	xiii	
LIST OF TABLES	xiii	
CHAPTER 1		
OVERVIEW		
1.1	Significance of the study	1
1.2	Research goal	1
1.3	The research domain	2
CHAPTER 2		
ADOLESCENCE		
2.1	Introduction	3
2.2	Adolescence as a Biological phenomenon	3
2.3	Adolescent Biology	4
2.4	Adolescent Sexuality	4

2.4.1	What is sexuality?	4
2.4.2	Factors affecting sexuality	5
2.4.2.1	Primary sexual changes during puberty	5
2.4.2.2	Secondary sexual changes during puberty	5
2.4.2.2.1	Female external changes	5
2.4.2.2.2	Male external changes	6
2.4.2.3	Consequences of early and late maturity	6
2.4.2.4	Hormones in adolescents	7
2.4.2.4.1	Hormones and the menstrual cycle	8
2.4.2.5	Erection, ejaculation and nocturnal remission	9
2.4.3	Research done on adolescent sexuality	10
2.5	Adolescent sexual knowledge	10
2.6	Adolescent sexual attitudes	12
2.6.1	Revolution in sexual attitudes	13
2.7	Adolescent sexual behaviour	14
2.8	Cultural influences on adolescent sexual attitudes and behaviour	16
2.9	Changed values and sexual behaviour	16
2.10	Sexual activity	16
2.10.1	Reasons for sexual activity in adolescents	19

2.10.2	Consequences of teenage sexual activity	19
2.10.3	Sexual problems	20
2.10.3.1	Changing attitudes	20
2.10.3.2	Masturbation	20
2.10.3.3	Cultural-historical comparisons	20
2.10.3.4	Dating	20
2.10.3.5	The use of contraception	21
2.11	Teenage pregnancy	21
2.11.1	Research done on teenage pregnancy	22
2.11.1.1	The baby	23
2.11.1.2	The teenage mother	23
2.11.1.3	The teenage father	24
2.11.1.4	The extended family	24
2.11.2	Contraception use	24
2.11.2.1	Research conducted on teenage contraception	25
2.11.2.2	Contraception suitable for adolescents	26
2.11.2.3	Other supposed methods of contraception	26
2.11.2.4	Reasons for non-use of contraception	27
2.12	Sexually transmitted diseases	27
2.12.1	Acquired Immune Deficiency Syndrome (AIDS)	28

2.12.1.1	HIV and the immune system	28
2.12.1.2	Contracting HIV	28
2.12.1.2.1	HIV/AIDS symptoms	29
2.12.1.3	HIV/AIDS prevention	29
2.12.1.4	HIV/AIDS treatment	29
2.12.2	Research conducted on STDs	29
2.13	South African sexuality research	30
2.14	Conclusion	30

CHAPTER 3

SEX EDUCATION PROGRAMMES

3.1	Introduction	32
3.2	Lifeskills and HIV/AIDS education programme	32
3.2.1	Background	32
3.2.2	PPASA model	33
3.2.3	Training	34
3.2.3.1	Participants	34
3.3	Rationale	35
3.4	Specific goals for the lifeskills and HIV/AIDS teachers training project	35
3.4.1	Stepping Stones and Men as Partners (MAP)	36

3.5	Research conducted on the lifeskills and HIV/AIDS teachers education project	37
3.5.1	Current and future research	38
3.6	Overview of the lifeskills and HIV/AIDS education programme	38
3.6.1	Contraception and teenage pregnancy	39
3.6.2	Relationships	40
3.6.3	Other	40
3.7	Sex education in other countries	40
3.7.1	“Dollar-a-day” and “Worth the wait”	40
3.7.2	Teen outreach project	41
3.8	Other strategies in sex education programmes	41
3.8.1	Pledging	41
3.8.2	Abstinence	41
3.8.3	Contraception education	41
3.9	Why do sexuality education programmes fail?	42
3.10	Conclusion	43

CHAPTER 4

RESEARCH METHODOLOGY

4.1	Statement of the research problem	44
------------	--	-----------

4.1.1	Sexual experience	44
4.1.2	Sexual values and attitudes	44
4.2	Research aims	44
4.3	Selection of participants	44
4.3.1	The sample	44
4.3.2	Characteristics of the sample	45
4.4	Procedure	45
4.5	Research design	46
4.6	Measuring instrument	46
4.6.1	Background information	47
4.6.2	The knowledge test	47
4.6.3	Attitude and value inventory	48
4.6.4	Behaviour inventory	48
4.7	Other researches in which the Mathtech instrument was used	49
4.8	Hypotheses	49
4.8.1	Hypothesis 1 (H1)	49
4.8.2	Hypothesis 2 (H2)	49
4.9	Statistical procedure	49

CHAPTER 5

DATA AND RESULTS

5.1	Introduction	50
5.2	Descriptive statistics	50
5.3	Inferential statistics	54
5.3.1	Global measures: knowledge, attitudes and behaviour	54
5.3.2	Sexual behaviour	56
5.3.2.1	Behaviour and talking about problems	57
5.4	Attitudes	58
5.4.1	The impact of gender	58
5.4.2	The impact of parental response	62
5.4.3	The impact of own sexual experience	63
5.4.4	The impact of family discussions	66
5.5	Summary of key findings	67
5.6	Conclusion	68

CHAPTER 6

CONCLUSION

6.1	Introduction	69
6.2	Other observations	69

6.3	Other complications	70
6.4	Views on improvements	71
6.5	Implications and recommendations	73
6.6	Future research	73
6.7	Conclusion	73

LIST OF FIGURES

Figure 2.1:	Puberty hormones and their functioning	7
-------------	--	---

LIST OF TABLES

Table 2.1:	Major hormones involved in physical growth and development	8
Table 2.2:	Reaction to sexual intercourse among teenagers	12
Table 2.3:	Views, attitudes and needs of adolescents with regards to their sexuality	13
Table 2.4:	An indication of whom/what has the strongest influence on adolescents in respect of sexual issues	15

Table 2.5:	Percentage of men and women aged 15-19 years who were never married and who reported sexual intercourse in the last twelve months	17
Table 2.6:	Mean number of sexual partners in the last 12 months among never-married men and women aged 15-19 years	18
Table 2.7:	Percentage of teens who report having sexual intercourse and percentage of mothers who believe their teens have engaged in sexual intercourse	18
Table 3.1:	PPASA sex education role-out	33
Table 3.2:	Teacher participation in PPASA workshops	35
Table 4.1:	Gender and age of participants	44
Table 4.2:	PPASA programme schedule	45
Table 5.1:	Descriptive statistics 1: Control group	51
Table 5.2:	Descriptive statistics 2: Experimental group	52
Table 5.3:	Sexual experience – control group and experimental group	53
Table 5.4:	Knowledge, attitudes and behaviour scores – experimental group	54
Table 5.5:	Paired samples T-test – knowledge, attitudes and behaviour: Experimental group	55
Table 5.6:	Knowledge, attitudes and behaviour score: control group	55
Table 5.7:	Paired samples T-test – knowledge, attitude and behaviour: control group	55
Table 5.8:	Sexual behaviour – control group	56

Table 5.9:	Sexual behaviour - experimental group	56
Table 5.10:	Sexual behaviour by family discussion: control group	57
Table 5.11	Sexual behaviour by family discussion: experimental group	57
Table 5.12:	Sexual attitudes by gender: control group, group statistics	58
Table 5.13	Sexual attitudes by gender: control group, independent samples T-test	59
Table 5.14:	Sexual attitudes by gender: experimental group, group statistics	60
Table 5.15:	Sexual attitudes by gender: experimental group, independent samples T-test	61
Table 5.16:	Sexual attitudes by parental response: control group	62
Table 5.17:	Sexual attitudes by parental response: experimental group	62
Table 5.18:	Sexual attitudes by sexual experience: control group	64
Table 5.19:	Sexual attitudes by own sexual experience: experimental group	65
Table 5.20:	Sexual attitudes by family discussions: control group	66
Table 5.21:	Sexual attitudes by family discussion: experimental group	67
