

TABLE OF CONTENTS	PAGE
List of tables and figures	v
Chapter one: Introduction	
1.1 General Introduction	1
1.2 Aim and rationale of the study	2
1.3 Overview of Chapters	3
Chapter two: Social Cognition and Social Identity	
2.1 Introduction	5
2.2 Social Cognition	5
2.2.1 Schema theory	6
2.2.2 Inevitability of stereotypes and prejudice	11
2.2.3 Schema functioning	13
2.2.4 Critique of schema theory	18
2.3 Social identity theory	19
2.3.1 Social categorisation and SIT	22
2.3.2 Social identity and SIT	23
2.3.3 Social comparison and SIT	25
2.3.4 Self-categorisation theory	28
2.3.5 Optimal distinctiveness theory	30
2.4 Criticisms of social identity theory	30
2.5 Chapter Summary	32

Chapter three: **Stereotype constructs and HIV**

3.1 Introduction	34
3.2 Stereotype content	34
3.3 Attitudes towards people with HIV/ AIDS	36
3.4 HIV stereotypes as individual beliefs	38
3.4.1 HIV stereotypes as schemas	39
3.4.2 Criticisms of individual approaches to stereotyping	40
3.5 HIV stereotypes as collective beliefs	40
3.5.2 Social identity approach to HIV stereotypes	42
3.6 HIV stereotype content	46
3.7 Stereotype content measurement	47
3.8 Chapter Summary	50

Chapter four: **Research Method**

4.1 Introduction	54
4.2 Research Goals and Problem Statement	54
4.3 Hypotheses	55
4.4 Preliminary Study	56
4.4.1 Participants and Design	56
4.4.2 Instrumentation and Procedure	57
4.4.3 Results	57
4.5 Main study	58
4.5.1 Participants and Design	59
4.5.2 Instrumentation	60
4.5.3 Procedure	60
4.5.4 Data Analysis	62

4.5.4.1 Exploration of stereotype content	62
4.5.4.2 Exploration of stereotype subtypes	62
4.5.4.3 Hypothesis testing: Differences in subtype strength	63
4.5.4.4 Hypothesis testing: Ethnic differences	63
4.5.4.5 Other findings: gender differences	64

Chapter five: **Results**

5.1 Introduction	65
5.2 Exploration of stereotype content	65
5.3 Exploration of stereotype subtypes	68
5.4 Hypothesis testing: Differences in subtype strength	72
5.4.1 Descriptive statistics	72
5.4.2 Inferential statistics	73
5.5 Hypothesis testing: Differences between ethnic groups	75
5.5.1 Descriptive statistics: Ethnic differences in subtype strength	75
5.5.2 Inferential statistics: Subtype strength	76
5.5.3 Descriptive statistics: Ethnic differences in distribution of ratings	77
5.5.4 Inferential statistics: Stereotype content distribution	84
5.5.5 Ethnic differences in cluster distribution	86
5.6 Other findings: Gender differences	88
5.6.1 Descriptive statistics: Gender differences in subtype strength	88
5.6.2 Inferential statistics: Gender differences in subtype strength	89
5.6.3 Descriptive statistics: Gender differences in stereotype content distribution	89
5.6.4 Inferential statistics: Gender differences in stereotype content distribution	95

Chapter six: **Discussion and Conclusion**

6.1 Introduction	98
6.2 Discussion	98
6.2.1 Exploration of stereotype content, subtypes and subtype strength	98
6.2.2 Ethnic differences & other findings	105
6.2.3 Research goals and problem statements	109
6.2.4 Limitations of the Study	111
6.2.5 Recommendations for future research	113
6.3 Conclusion	114

Appendices

Appendix A: Free response questionnaire used in the preliminary study	116
Appendix B: The stereotype checklist used in this study	117
Appendix C: Cluster analysis tables, ANOVA and chi-square tables	130

List of Tables and Figures

Table 5.1	Frequency table showing HIV stereotype content, percentage, mean strength and standard deviations	66
Figure 5.1	Eigenvalue scree plot of all 34 factors	69
Table 5.2	Parallel analysis showing initial and random eigenvalues	69
Table 5.3	Factor correlation matrix of meaningful factors	70
Table 5.4	Factor Pattern Matrix with Meaningful Factors (Subtypes), Eigenvalues, Contributing Items, and Factor Loading of Items (N = 283)	71
Figure 5.2	Mean strengths for the Needy Worrier subtype, the Contagious Sufferer subtype and the Neurotic Risk-taker subtypes HIV (N= 283)	73
Table 5.5	Pairwise comparison of subtype strengths	74
Figure 5.3	Differences in subtype strength as a function of ethnic group (N=169)	75
Table 5.6	Pairwise comparison of subtype strength by ethnic group	77
Table 5.7	Cross tabulation and means of stereotypes by ethnic group (Black: N = 62; White: N = 169)	79
Table 5.8	Chi square values and significance levels for ethnic differences (Black N=62, White N= 169)	85
Figure 5.4	Percentage distribution of response clusters within black (N= 62) and white (N=169) participants	87
Figure 5.4	Differences in subtype strength as a function of gender	88
Table 5.9	Cross tabulation of male (N =64) and female (N=219) percentages and means.	90
Table 5.10	Chi-square values and significance labels for gender differences; Males (N= 64), Females (N=219)	96
