

# ACKNOWLEDGEMENTS

The following person/s and institutions are hereby acknowledged:

Foremost my sincerest gratitude to my supervisor Dr. Martin J. L. Jooste for his tremendous enthusiasm, guidance and expertise towards this study in association with the Department of Psychology at the Rand Afrikaans University.

The Statistical Consultation Service (Statcon) at the Rand Afrikaans University. Special appreciation and acknowledgment to Dr. Riette Eiselen for her assistance with the data analyses.

Professor W.J. Schoeman and the Department of Psychology at the Rand Afrikaans University for their assistance in providing the volunteer student sample.

The 1<sup>st</sup> and 2<sup>nd</sup> year psychology volunteer students of 2003, who participated in the research; for their willingness to share their views with us and for making this study possible.
