

Appendix 5: Microprobe analysis for sample 06-19

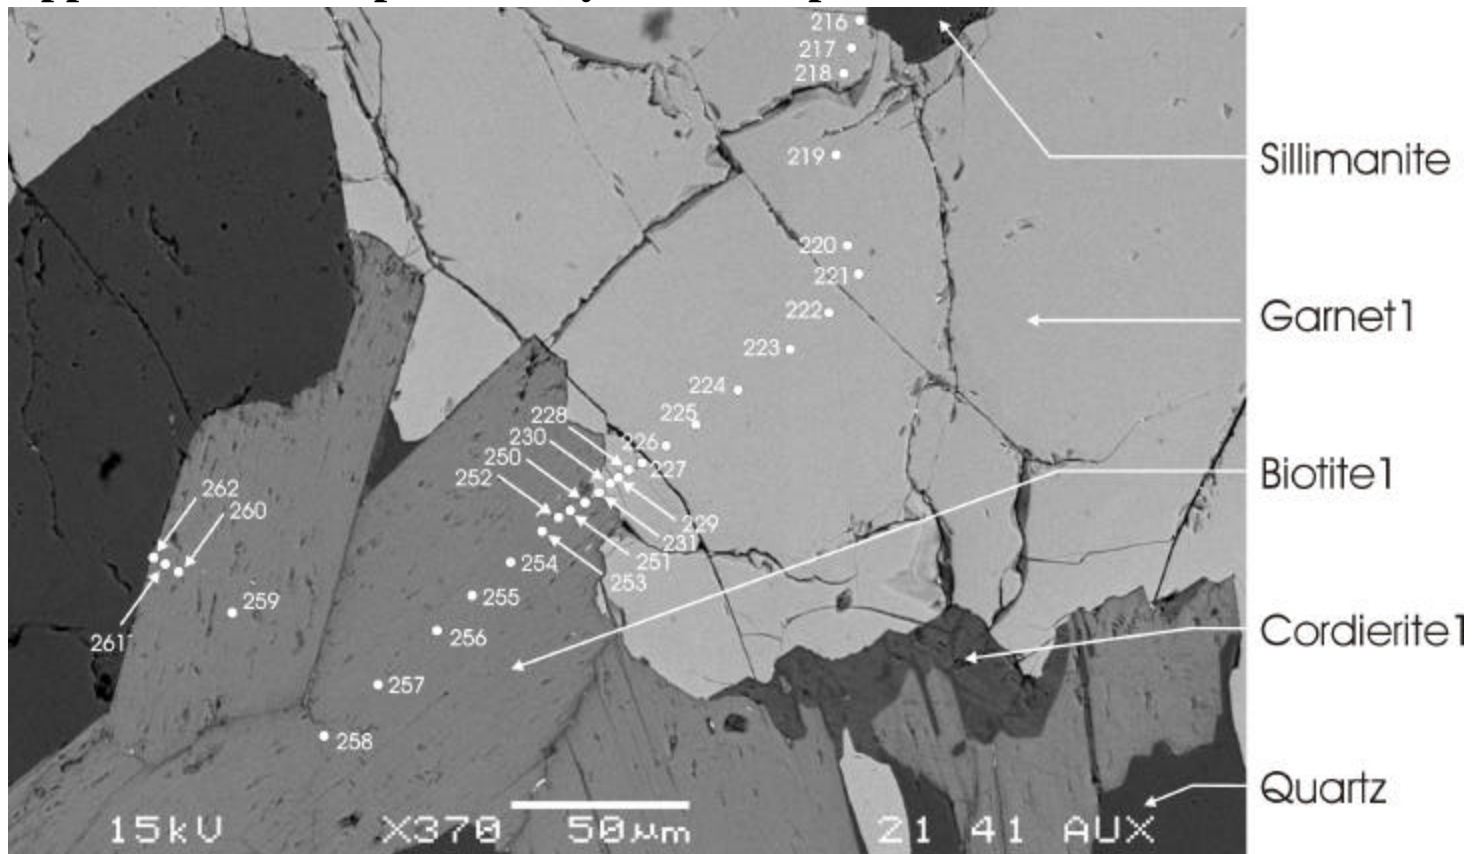

Figure A5.1: Position of microprobe points in profile 7 across biotite and contacting garnet.

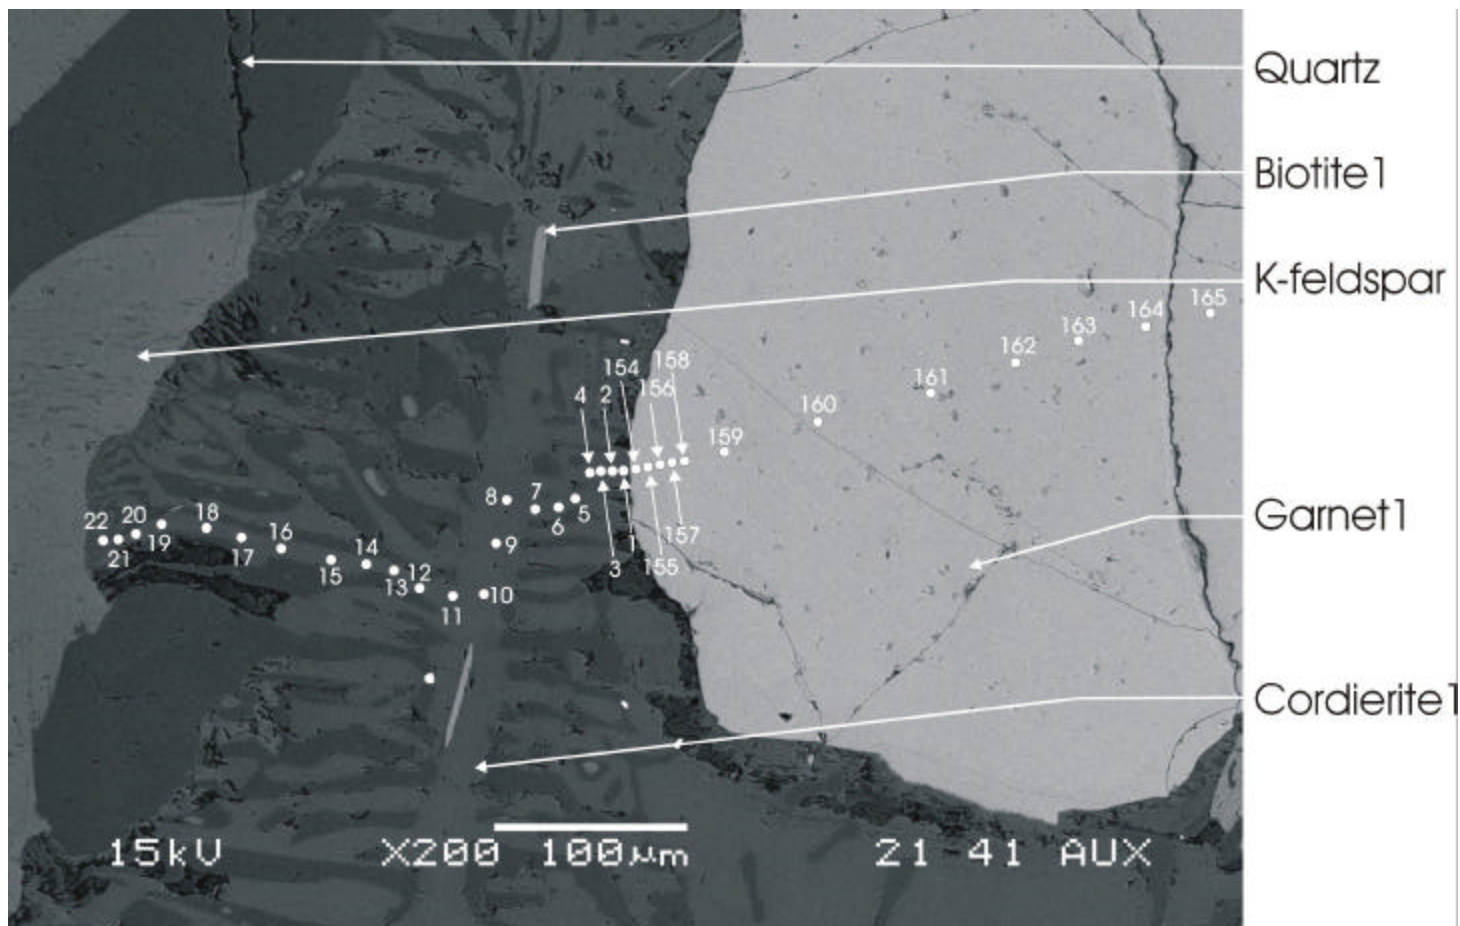

Figure A5.2: Position of microprobe points in profile 8 across garnet and contacting cordierite

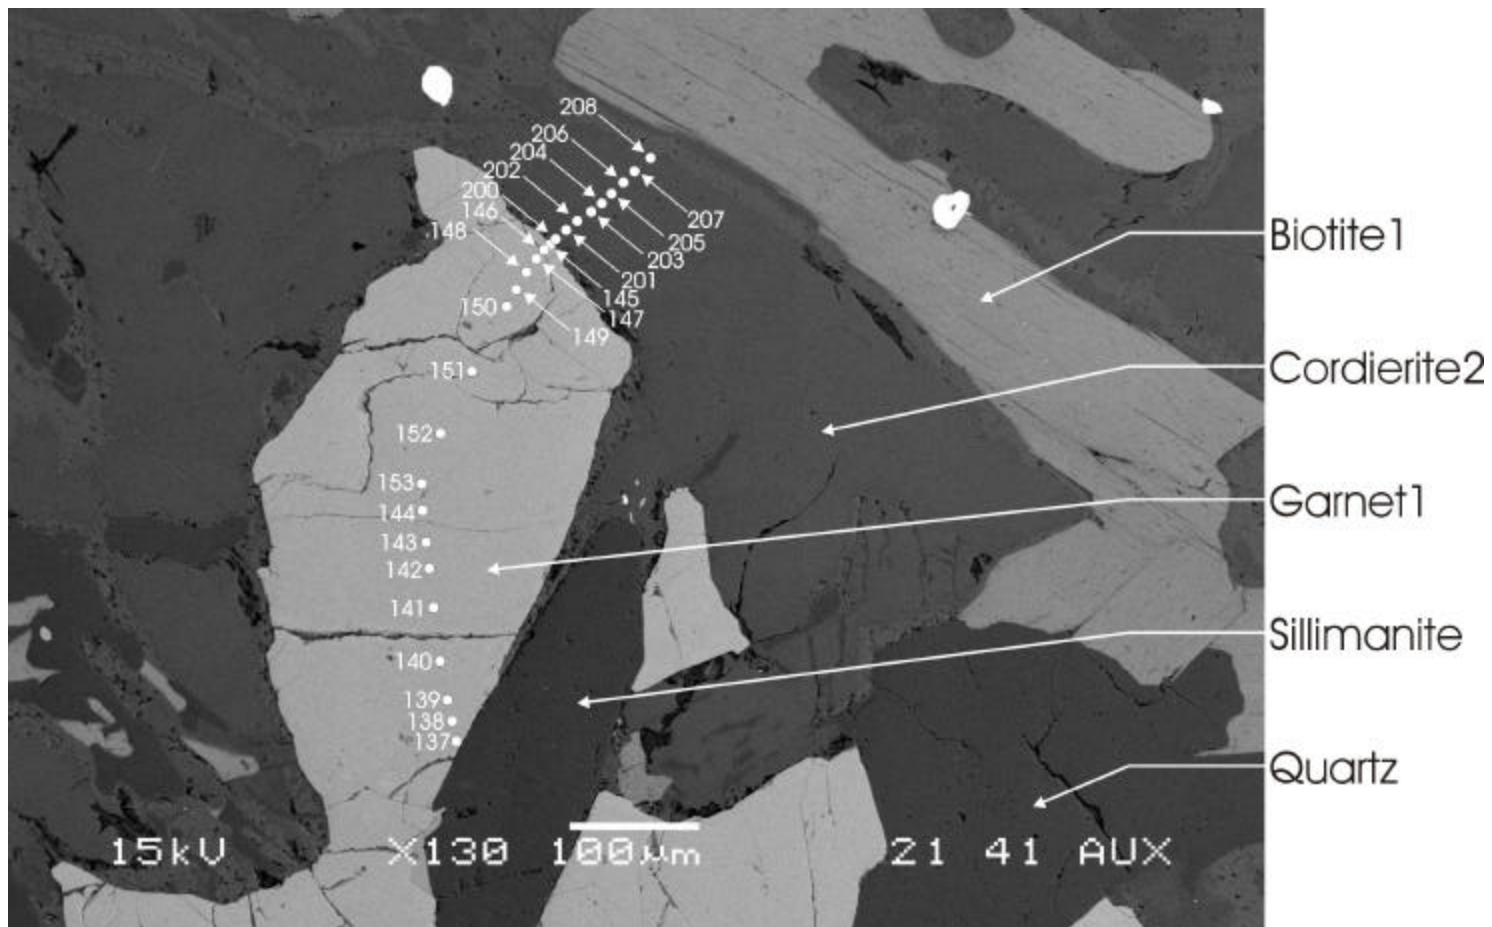

Figure A5.3: Position of microprobe points in profile 10 across garnet and cordierite.

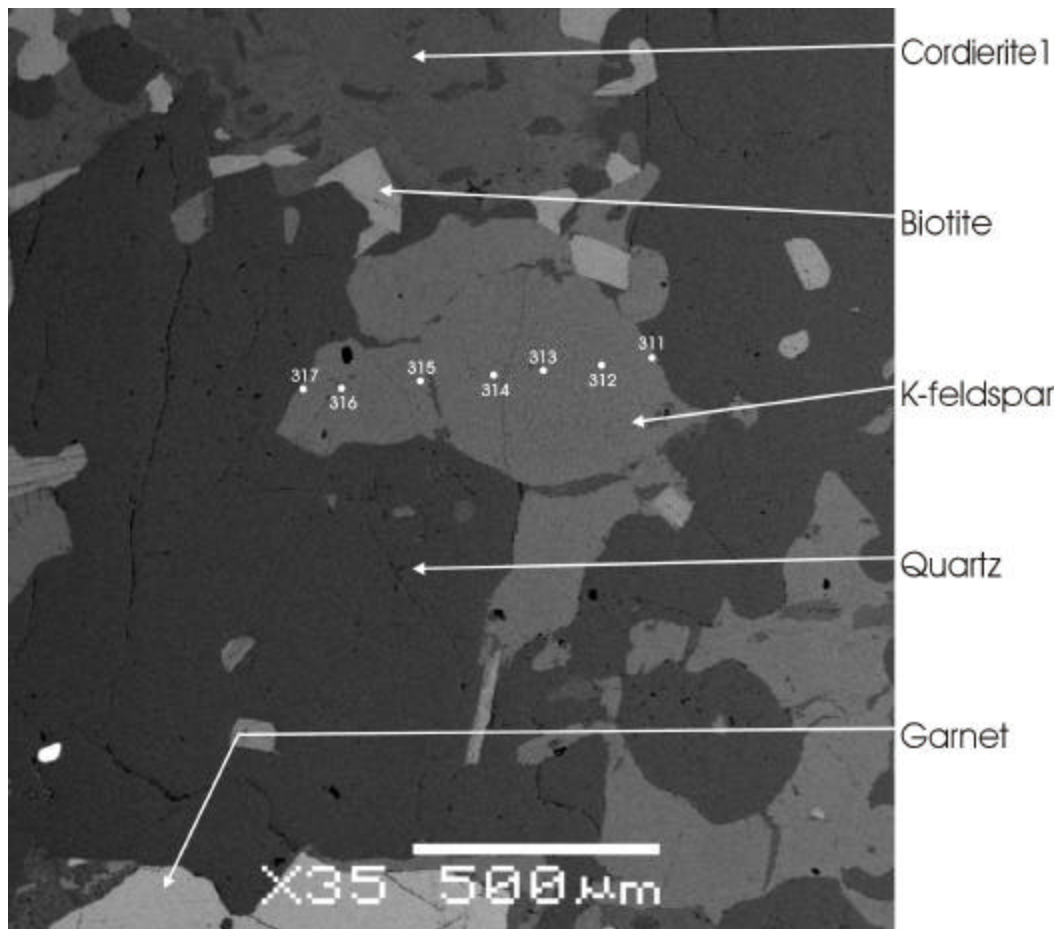

Figure A5.4: Position of microprobe points in profile 9 across K-feldspar

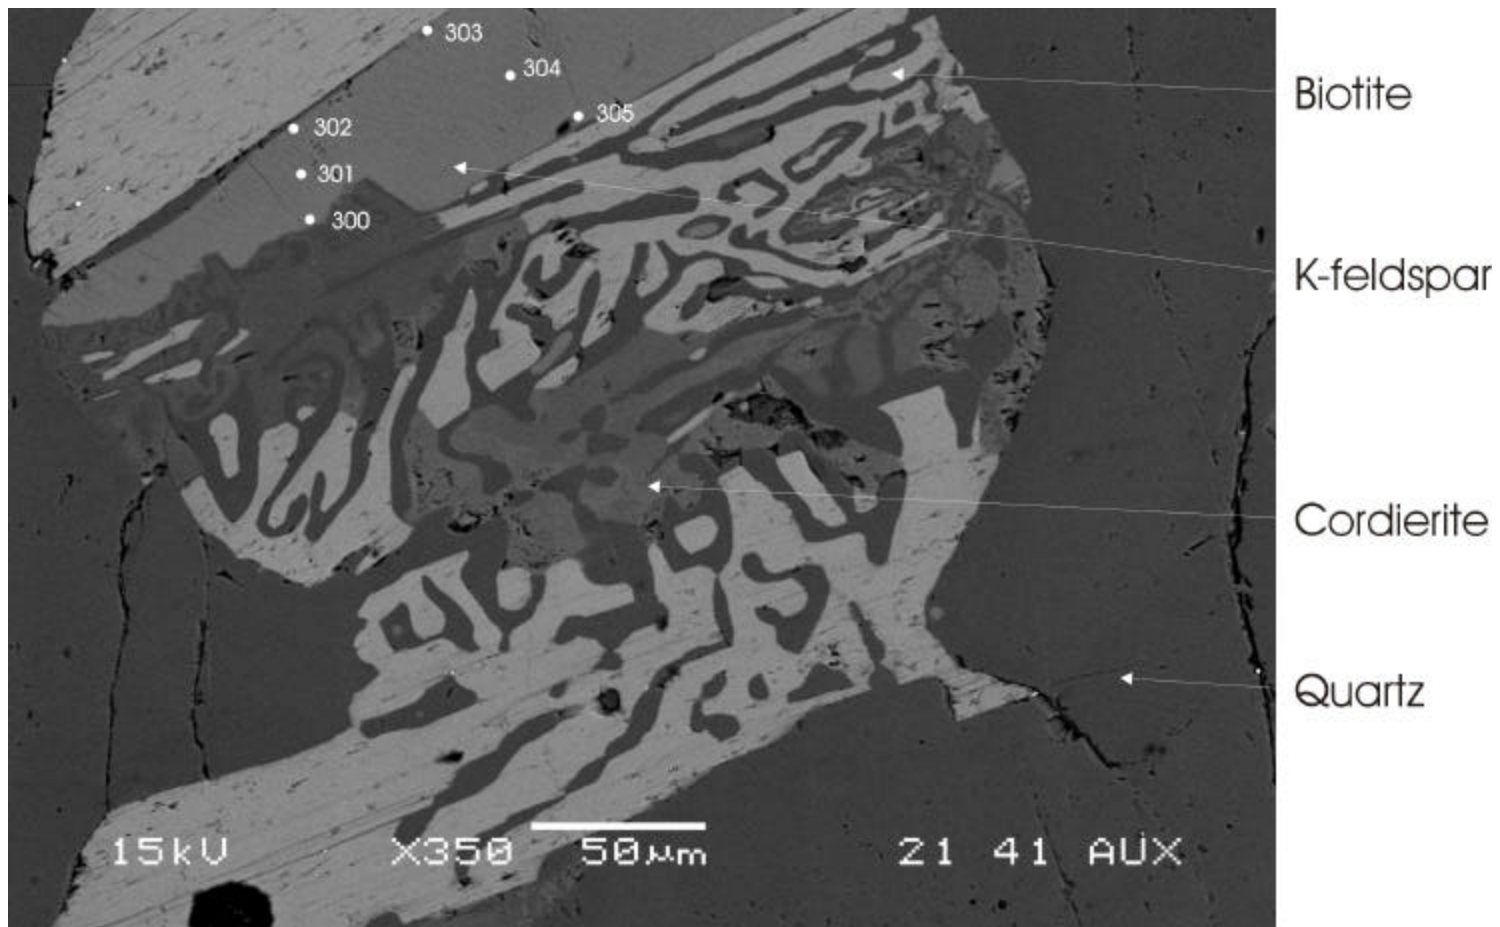

Figure A5.5: Position of microprobe points across K-feldspar used for thermobarometry.

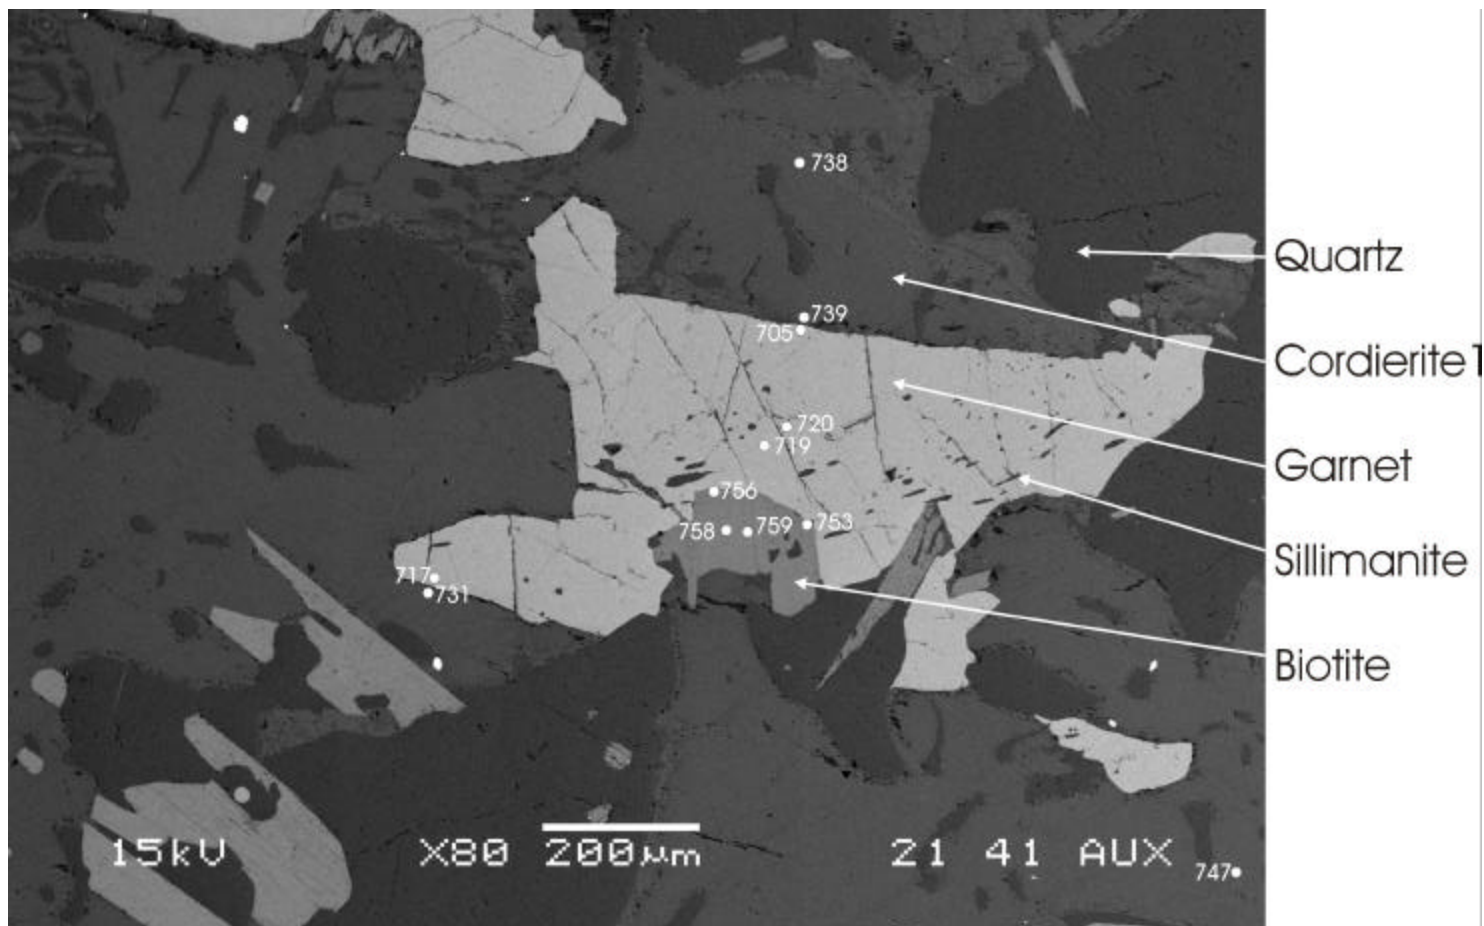

Figure A5.6: Position of microprobe points used for thermobarometry
