Support for research - survey

SUPPORT FOR RESEARCH

I am a Human Resources Practitioner and is currently busy with my doctoral studies at RAU. I obtained a bursary and the topic of my doctoral is "A predictive model of employee commitment in a world-class organisation".

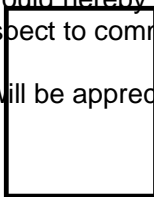

My research includes the completion of questionnaires by employees. These questionnaires focus on employee commitment towards a broad spectrum, including employee commitment towards their trade union. I believe that the result of this research will not only be to the benefit of the company, but also for the trade union with respect to employee's commitment towards them.

The questionnaires will be completed anonymously and the results will be handled confidential and with the necessary sensitivity.

I plan to conduct the survey during June 2003 within the Technical Department. I already got permission from management to conduct the survey.

I would hereby like to request your support towards this survey, which will include the section with respect to commitment towards trade unions.

It will be appreciated if you can pledge your support in writing before or on 16 May 2003.
